Subject: BDCP call today

There was a brief call today between Jared, Cynthia Giles and Ken Koposis on the current state of play on Bay Delta. All three are on the same page that if the lead agencies publically announce there will be a Supplemental, then we will not rate and will send comments (in one form or another). If on the other hand, the lead agencies do not publically indicate before the end of the comment period in July that they will do a Supplemental, then EPA will rate the project. This is the message that Jared will relay to Letty if he sees her while he is in AZ tomorrow and the message that we should all be communicating. Let me know if you have any questions. Thanks all.
